MEMORANDUM FOR Demobilizing Reserve Components (RC) Soldiers

SUBJECT: Dental Fitness Class 3 Treatment After Release From Active Duty
(REFRAD)

1. You have been identified during the demobilization dental examination process as a Dental Fitness Class 3. This is a dental condition that will likely cause a dental emergency within the next 12 months. A Dental Fitness Class 3 status also means that you are in a non-deployable status which counts against the readiness measurements of your unit.
2. RC Soldiers from the Army National Guard and US Army Reserve who have been identified as a Dental Fitness Class 3 during the demobilization dental examination process shall be contacted by their specific component's dental readiness system to schedule treatment.
 - a. Army National Guard Soldiers shall be contacted through their individual State Surgeon's office in order to initiate treatment.
 - b. US Army Reserve Soldiers shall be contacted by the Reserve Health Readiness Program office contractor, Logistics Health Incorporated (LHI), within 30 days of demobilization to schedule treatment. US Army Reserve Soldiers have the option to contact the LHI customer service department directly to schedule appointments using the POC number listed below.
3. If you should have questions on how to obtain your treatment after REFRAD, please contact the following POCs:
 - a. The Army National Guard POC: Office of the Deputy State Surgeon. Information available at GKO>ARNG>Office of the Chief Surgeon (NGB-ARS)>Deputy State Surgeon (DSS).
 - b. The US Army Reserve POC: Logistics Health Incorporated (LHI), Phone: 1-800-666-2833.

MARK B. BODENHEIM
Colonel, Dental Corps
Chief, RC Operations, DENCOM
